Pólizas De Citas Y Pago

La persona que firma este documento acepta pagar todos los cargos relacionados con el tratamiento del paciente en las oficinas de Tebo Dental Group y acepta los términos y condiciones indicadas a continuación. Si dos o mas personas son responsables por los cargos, todos serán individual y colectivamente responsables de los cargos del paciente.

Citas canceladas o no asistidas

Si una cita tiene que ser cancelada, por favor notifíquenos al menos 24 horas o 1 día hábil antes de la cita. Citas programadas los lunes deben ser canceladas antes de la hora de la cita programada el viernes anterior o la cita será considerada una cita rota. Nuestro horario de oficina es de lunes a viernes de 8:00 am a 5:00 pm. Aunque nosotros no cobramos un cargo por las citas canceladas o perdidas, nosotros nos mantenemos firmemente a nuestras políticas de citas perdidas en esfuerzo para ofrecer la mejor experiencia posible a nuestros pacientes que llegan a tiempo a sus citas.

Se requiere el pago al momento de servicio

Esperemos el pago por sus servicios el mismo día de su cita a menos que usted haya hecho otros arreglos de pago con nosotros. Si nuestra oficina por cortesía, está reclamando el pago de sus servicios dentales a su seguro dental, por favor lea cuidadosamente el siguiente párrafo, el cual se refiere a los reclamos realizados a los seguros dentales. Ofrecemos financiamiento a traves de otras compañías en el caso que el paciente no puede pagar por el tratamiento en su totalidad. Para mas informacion, consulte con uno de nuestros asociados de servicio al cliente.

Reclamo de servicios a su seguro dental

Si por cortesía estamos realizando el reclamo del pago de sus servicios dentales a su seguro dental, usted es responsable del pago de la porción no cubierta por su seguro dental el día de su cita. Hacemos todo lo posible para reclamar a su seguro dental el pago de los servicios, basados en la información que usted nos ha proporcionado y en la información que su seguro dental nos ofrece en el momento en que verificamos su cobertura y beneficios. A pesar de esto, le informamos, que no podemos asegurar con exactitud la cantidad que su seguro dental emitirá por los servicios proporcionados; es por esto que usted es responsable por cualquier diferencia o balance generado en su cuenta, una vez que su seguro dental haya realizado el pago adecuado. No es fuera de lo normal que las compañías de seguros dentales den información equivocada, pero insistimos en su responsabilidad por cualquier cantidad no cubierta por su seguro dental. Si su compañía de seguro no llega a pagar en 30 días desde el día en que su tratamiento fue realizado, el balance es responsabilidad del paciente en su totalidad.

Cheques de vueltos (sin fondos)

Le insistimos el tomar todo tipo de precaución para evitar el darnos algún cheque que no tenga fondos en su cuenta bancaria. Por cada cheque de vuelto, le cargaremos \$30.00 a su balance actual. También le informamos, que si en el pasado usted ha tenido historia con nuestra oficina de cualquier cheque devuelto por su banco, no se le aceptaran más cheques personales.

Cargo de intereses en pagos tardíos

Por favor hágase cargo de su balance a tiempo. Confiamos en su pronto pago y el de su seguro dental. Es por esto que por cualquier balance no cancelado en 30 días, cargamos un interés en tarifa de 1.5% mensualmente. Les recomendamos a nuestros pacientes el entendimiento de sus beneficios dentales y monitorear sus planes dentales para agilizar el pago.

Cargos de colección

Si tenemos que mandar su cuenta a colección a una agencia o abogado, se le cobrara el monto de los cargos por mandarlo. Estos cargos incluyen la comisión de la agencia y si su cuenta ha sido cancelada después del principio de un litigacion de colección, cargos razonables del costo del abogado y de la corte. Para una cuenta que se ha cancelado antes del principio de un litigacion de colección, agregaríamos 43% al monto principal debido para que la oficina recupere el monto original después de cargos cobrados por la agencia de colección del monto colectado.

Consentimiento para la divulgación sobre el tratamiento o cargos

Si tratamos de comunicarnos con usted sobre el tratamiento del paciente o los cargos y alcanzamos en vez alguien que creemos está directamente involucrado en el cuidado del paciente, como su esposa(o), otro miembro de la familia, pariente o amigo personal cercano, usted consiente a nuestra divulgación a esa persona de cualquier información que nuestra oficina halle apropiada concerniente al tratamiento o cargos del paciente. We are committed to safeguarding the privacy of your health information. This notice tells you about the ways and conditions under which we may use and disclose your health information. We also describe your rights, and certain duties we have, concerning the use and disclosure of your health information. This notice applies to all of the records of your dental or other medical care generated by our dentists, hygienists and other staff members and any other health information that we may have about you.

How We May Use and Disclose Your Health Information

The following categories describe different ways that we use and disclose health information. For each category of uses or disclosures, we will explain what we mean and give examples where appropriate. Some uses and disclosures of your health information require your written authorization, others require that we give you an opportunity to agree or object and still others require neither your written authorization nor an opportunity for you to agree or object.

Uses and Disclosures in the Following Categories Require Neither Your Written Authorization Nor an Opportunity for You to Agree or Object:

We may use or disclose your protected health information for the purposes described in the following categories without your written authorization and without giving you an opportunity to agree or object. In some cases, we will give you notice of the use or disclosure.

Treatment: We may use your health information to provide you with dental treatment or services. We may disclose your health information to dentists, dental assistants, hygienist, other dental office personnel or other health care providers who are involved in your treatment or care. For example, your dentist may need to disclose some of your health information to order tests or lab work to be performed at an outside laboratory or other outside health care provider.

Payment: We may use and disclose health information about your treatment and services to bill and collect from you, your insurance company or another third party payer. For example, we may need to give your health insurance plan information so that it will pay us or reimburse you for dental services. We may also tell your health insurance plan about a treatment you are going to receive to determine whether your plan will cover it.

Health Care Operations: We may use and disclose health information about you for office operations. These uses and disclosures are necessary to run our dental office and help to provide you with appropriate dental services. For example, we may use your health information to review our treatment and services and to evaluate the performance of our staff in caring for you. Some of these reviews may be conducted by independent dentists who are members of our staff, but are not employees of the office. We may also combine health information about many of our patients to decide what additional services we should offer and what services are not needed. We also may disclose information to dentists, hygienists, dental assistants and other office personnel for review and learning purposes.

Required By Law: We will disclose health information about you when required to do so by federal, state or local law, except that federal law takes precedence if there is a conflict with state or local law.

Public Health Activities: We may disclose your health information for public health activities. These activities generally include prevention or control of disease, injury or disability, reporting births and deaths, reporting child abuse or neglect, reporting reactions to medications or problems with products, notifying people of recalls of products they may be using or notifying a person who may have been exposed to a disease or may be at risk for contracting or spreading a disease or condition.

Victims of Abuse, Neglect or Domestic Violence: If we believe you have been the victim of abuse, neglect or domestic violence, we will disclose your health information to the appropriate government authority to the extent required by law. Even if not required by law, we may disclose such information if you agree to the disclosure; if we believe, in the exercise of professional judgment, that disclosure is necessary to prevent serious harm to you or other potential victims; or if you are unable to agree because of incapacity and a law enforcement or other public official authorized to receive the report represents that your health information is not intended to be used against you and that an immediate enforcement activity that depends upon the disclosure would be adversely affected by waiting until you agree to the disclosure.

Health Oversight Activities: We may disclose your health information to a health oversight agency for activities authorized by law. These oversight activities include, for example, audits, investigations, inspections and licensure. These activities are necessary for the government to monitor the health care system, government programs and compliance with civil rights laws.

Judicial and Administrative Proceedings: If you are involved in a lawsuit or a dispute, we may disclose your health information in response to a court or administrative order. We also may disclose your health information in response to a subpoena, discovery request or other lawful process by someone else involved in the dispute, but only if efforts have been made to tell you about the request (which may include written notice to you) or to obtain a court order protecting the information requested.

Law Enforcement: We may disclose health information if asked to do so by a court order, subpoena, warrant, summons or similar process for law enforcement purposes or by a law enforcement official to identify or locate a suspect, fugitive, material witness or missing person or to gather information about someone who is suspected to be the victim of a crime, about a death we believe may be the result of criminal conduct or about criminal conduct that occurs on our office premises.

Coroners, Medical Examiners and Funeral Directors: We may disclose health information to a coroner or medical examiner. This may be necessary, for example, to identify a deceased person or determine the cause of death. We also may disclose health information about patients of the practice to funeral directors as necessary to carry out their duties.

Organ Donation: We may disclose your health information to organ procurement organizations or other entities engaged in the procurement, banking or transplantation of cadaveric organs, eyes or tissue for the purpose of facilitating organ, eye or tissue donation and transplantation.

Research Purposes: We may use or disclose your health information for a research purpose, but only if we observe a variety of conditions intended to safeguard the privacy of your health information. The practice does not anticipate that it will use or disclose your health information for a research purpose.

Averting a Serious Threat to Health or Safety: We may use or disclose your health information when necessary to prevent a serious threat to your health and safety or the health and safety of the public or another person. Any disclosure, however, would only be to someone able to help prevent the threat.

Military and Veterans: If you are a member of the armed forces, we may disclose your health information as required by military command authorities.

National Security and Intelligence Activities: We may disclose your health information to authorized federal officials for intelligence, counterintelligence and other national security activities authorized by law.

Protective Services for the President and Others: We may disclose your health information to authorized federal officials so they may provide protection to the President, other authorized persons or foreign heads of state or so that they may conduct special investigations.

Inmates: If you are an inmate of a correctional institution or under the custody of a law enforcement official, we may disclose your health information to the correctional institution or law enforcement official if the release would be necessary for the institution to provide you with health care, to protect your health and safety or the health and safety of others or for the safety and security of the correctional institution.

Workers' Compensation: We may disclose your health information for workers' compensation or similar programs. These programs provide benefits for work-related injuries or illness.

Limited Data Set: We may use or disclose your health information in a "limited data set", which means that certain identifying information (like name, address, phone number, etc.) is deleted and the reduced information is shared with another party, but only for purposes of research, public health or health care operations and only in compliance with federal privacy regulations.

Fundraising: We may use or disclose your health information for our own fundraising activities, but the type and amount of information we may use for such purpose is limited significantly by federal privacy regulations, unless we get your prior written authorization to use or disclose additional information. We do not have any present intention of sending you any fundraising communications, but if we ever send you any such communications, we will give you the opportunity to opt-out of receiving any further communications from us concerning fundraising.

Uses and Disclosures in the Following Categories Require That You Have an Opportunity to Agree or Object:

For the use or disclosure of your health information in the following categories, we do not need to get your prior written authorization, but we do need to give you an opportunity to agree or object.

Patient Directory: The practice currently does not maintain a directory of patients. If the practice creates such a directory, we will give you an opportunity to restrict some or all of your information from appearing in the directory.

Persons Involved in Your Care or Payment for Your Care: We may disclose your health information to a member of your family, a friend or another patient if the family member, friend or other patient is directly involved in the your care and the disclosure is necessary for your welfare. The practice will limit the health information disclosed to the family member, friend or other patient to health-related symptoms and to information designed to help you deal with your condition or treatment, including setting and changing appointments, receiving instructions for post-visit care or picking up treatment-related items. We may also disclose a limited amount of your health information to locate you or to locate or notify your family member or friend. We will not make these disclosures to your friends and family if you tell us not to do so.

Immunization Information for School: We may disclose proof of immunization to a school where you are a student or prospective student if the school is required by Georgia or other law to have such proof of immunization prior to admitting you to school and you agree to the disclosure. If we are required by law to disclose such proof of immunization, then we must do so whether or not you agree to the disclosure.

Uses and Disclosures in the Following Categories Require Your Prior Written Authorization:

For the use or disclosure of your health information in the following categories, we must get your prior written authorization.

Psychotherapy Notes: Without your prior authorization, we are not allowed to use or disclose any psychotherapy notes that may be part of your health information except to defend ourselves in a legal action or other proceeding.

Marketing: Without your prior authorization, we are not allowed to use or disclose your health information for marketing purposes unless we are communicating with you face-to-face or we are providing you with a promotional gift of nominal value. It is not considered marketing, however, if we are telling you about possible treatment options or alternatives that we think may be of interest to you. If our marketing activity involves financial remuneration to us from a third party, the patient authorization will state that such remuneration is involved.

Sale of Health Information: Without your prior authorization, we are not allowed to sell your health information, except that selling does not include use or disclosure of health information for the purpose of research, public health, treatment, payment, the sale of our practice, business associate services to us, providing you with information when you request it, complying with law or for any other purpose where we are only

recovering our cost in preparing and transmitting your health information or are only charging a fee authorized by law. If we propose to sell your health information, the authorization will state that the sale will result in financial remuneration to us from a third party.

Any Use and Disclosure Not Covered in this Notice: Uses and disclosures of health information in the three categories immediately above this paragraph, and any other uses or disclosures not covered anywhere else in this notice, will be made only with your prior written authorization. You will have the right to revoke that authorization at any time orally or in writing. If you revoke your authorization, we will no longer use or disclose your health information to the extent your authorization is needed for the use or disclosure. We are unable, of course, to take back any uses or disclosures we have already made with your authorization. Also, we are required in any event to retain our records of the care that we provide to you.

Disclosure to or Use by Business Associates:

There are some services that we provide through contracts with business associates. For example, we use an outside copy service if needed to make copies of your x-rays. When these services are contracted, we may disclose your health care information to our business associate so that the associate can perform the job we have asked the associate to do. To protect your health information, we require our business associates to commit to us in writing that they will safeguard the privacy of your health information to the same extent that we are required to safeguard it, with only very limited exceptions permitted by federal privacy regulations.

Your Health Information Rights

You have the following rights concerning health information we have about you:

Right to Request Privacy Protection: You have the right to request a restriction or limitation on the health information about you that we use or disclose for treatment, payment or health care operations. We are not required to agree to such a request unless the disclosure you wish to restrict is to a health plan for the purpose of carrying out payment or health care operations (and is not for the purpose of carrying out treatment) and the health information to be restricted pertains solely to a health care item or service for which you have paid us out of pocket in full. If we do agree to your request, the requested restriction will not be effective until you receive written confirmation from us that we have agreed to the request. In emergency treatment situations, agreements to restrict the use or disclosure of your health information will not apply. To request restrictions, you should contact the privacy officer at the address or number listed at the end of this notice to get the form you will need to fill out for this purpose. In your request, you must tell us what information you want to limit, whether you want to limit our use, disclosure or both and to whom you want the limits to apply (for example, your children, your parents or others involved in your care). To be binding on us, any agreement to comply with special restrictions must be in writing signed by the privacy officer or another authorized employee of our practice.

Right to Request Confidential Communications: You have the right to request that we communicate with you about your health information in a certain way or at a certain location. For example, you can ask that we only contact you at work or by mail. To request confidential communications, you must make your request in writing to the privacy officer listed at the end of this notice. We will not ask you the reason for your request. We will accommodate all reasonable requests. Your request must specify how or where you wish to be contacted.

Right to Inspect and Copy: You have the right to inspect and to receive a copy, summary or explanation of your health information. You can also designate a third party to receive the information on your behalf. If you want to inspect or receive a copy, summary or explanation of your health information, please contact the privacy officer listed at the end of this notice to obtain and complete the required form. All requests must be made in writing. If you request a copy of your health information, we may charge a fee for the costs of copying and mailing your request or of preparing a written summary or explanation. If you request an electronic copy of health information that we maintain in electronic form, we will provide the information in electronic form to you or directly to a third party of your choice. For providing an electronic copy of your health information, we will charge you only our labor costs in responding to your request. We may deny your request in certain very limited circumstances. If you are denied access to your health information, you may request that the denial be reviewed. Another licensed health care professional chosen by the office will review your request and the denial. The person conducting the review will not be the person who denied your request. We will comply with the outcome of the review.

Right to Ask for Changes: If you believe that health information we have about you is incorrect or incomplete, you may ask us to change or add to the information. You have the right to ask for a change or addition for as long as the information is kept by the office. You should contact the privacy officer listed at the end of this notice to get the required form. All requests for changes or additions to your health information must be made in writing. You must give us a reason for your request. We may deny your request if it does not

include an appropriate reason to support the request. In addition, we may deny your request if you ask us to change or add to information that we did not create (unless the person or entity that created the information is no longer available to make the change or addition), information that is not part of the health information kept by the office, information that is not part of the information which you would be permitted to inspect and copy or information that is already accurate and complete.

Right to an Accounting of Disclosures: You have the right to request an accounting of certain disclosures of your health information made by us or our business associates. We are not required to account for disclosures in the following categories: disclosures made to carry out treatment, payment or health care operations, disclosures to you, disclosures made pursuant to your authorizations, disclosures to persons involved in your care and certain other special disclosures described in federal privacy regulations. To ask for a list of disclosures that we are required to report, you should contact the privacy officer listed at the end of this notice to get the form you will need to fill out for this purpose. Your request must be in writing and state a time period no longer than six years before the date of the request. Your request should indicate in what form you want the list (for example, on paper or electronically). The first list you request within a twelve month period will be free. For additional lists, we may charge you for the costs of providing the list. We will notify you of the cost involved and you may choose to withdraw or modify your request before any costs are incurred.

Even if you have agreed to receive this notice electronically, you are still entitled to a paper copy of this notice.
